#### Right to rectification

You have the right to request that any incorrect information about you be corrected and also demand that we limit our processing of your personal data while we investigate your request. You also have the right to request a supplement to any incomplete information we hold about you.

If you wish to have information corrected, you can request this by submitting the application form [that you will find here](#).

### Right to Data Portability

In some cases, you have the right to have your personal data transferred in electronic format to another data controller (so-called "data portability"). This assumes that the transfer is technically possible and can be done in an automated way. The right to data portability applies to data that you have provided to us and that we process on the basis of performance of a contract or consent as legal bases.

If you wish to have data portability of your data, you can apply for this by submitting the application form [available here](#).

## How is your data protected

We pursue a very ambitious information security programme. This means, among other things, that we have strong technical measures that protect all our information, such as firewalls and intrusion protection. In addition, we work with access control, which means that personal data is not accessible to more of our employees than is necessary for each employee to be able to perform their work. Finally, we impose at least as high security requirements on the suppliers who process personal data on our behalf.
